Dear [REDACTED]

Please find enclosed your copy of *Secrets of Argument in the Courtroom and Elsewhere* workshop. Also as a bonus I am enclosing a reprint of *Fallacy: The Counterfeit of Argument*. A book now out of print, but which you will find is intended to be a part of the *Secrets* workshop.

In addition, I have just recently received from an earlier subscriber to the *Secrets* workshop, a copy of another book most useful as introduction to general semantics, but not mentioned in the workshop. It is *Levels of Knowing and Existence* by Harry L. Weinberg, published in 1959. It also appears to be no longer in print, an issue I am still pursuing. But, it is first rate as a supplement to the workshop. I will send a reprint to you for \$25.00 should you prove interested. I highly recommend it.

I will forward a copy of the new chapter **The nature and Limitations of the Police Power** when it is finished. It is to be added to TAOR.

Sincerely,

Jim Wood
